INDEX OF TECHNICAL AND SYMPOSIUM PAPERS
VOLUME 86, PARTS I AND II

TITLES

A

Adaptive Optimal Control—An Algorithm for Direct Digital Control, D.R. FARRIS, T.E. McDONALD. I 880

Air Quality Levels in a Two-Zone Space, L.C. RODGERS ..... II 92

Analysis of Code Related Responses from the Solar Demonstration Program, An, J. GREENBERG ..... II 403

Application of a Generalized Model of Air Infiltration to Existing Homes, J.T. COLE, T.S. ZAWACKI, R.H. ELKINS, J.W. ZIMMER, R.A. MACRISS ..... II 765

Assessing Environmental Conditions in Apartments of the Elderly, R.O. TURNQUIST, R.P. VOLMER ..... I 536

Atrium as a Fresh Air Channel—A Different Concept in Smoke Control, The, J.W. FOTHERGILL, JR. ..... I 624

B

Barrier or Incentive: Should Public Utilities Be Involved with Solar Energy?, M.S. MENZER ... II 397

Bidirectional Coil Loop Thermosiphon Heat Exchanger, The, T.W. McDONALD, S. Sampath .. II 37

British Gas Multi-Cell Model for Calculating Ventilation, The, D.W. ETHERIDGE, D.K. ALEXANDER ..... II 808

Bruce Hunn Residence as Simulated by the DEROB System, The, D.O. NORTHRUP, F. ARUMI-NOE ..... II 873

C

Calcium Carbonate Scaling Characteristics of Cooling Tower Water, K.E. COATES, J.G. KNUDSEN ..... II 68

Calculating Infiltration: An Examination of Handbook Models, J.E. JANSSEN, A.N. PEARMAN, T.J. HILL ..... II 751

Capacity Control for Partial Load Operation of Screw Compressor Units, A. LUNDBERG ..... I 485

Certification of Energy Analysis Computer Programs in California, C.W. HOELLWARTH... I 781

Characteristics of Refrigerant Flow in a Capillary Tube, H. KOIZUMI, K. YOKOYAMA ..... II 19

Collector Sizing Procedure for Residential Solar Hot Water Systems with Prescribed Thermal Performance Requirements, A, M.E. McCABE . I 420

Comfort Limits for Heated Ceilings, P.O. FANGER, L. BANHIDI, B.W. OLESEN, G. LANGKILDE ... II 141

Community Energy System Supplied from Waste Industrial Energy through Heat Pumps, A, L.B. KATTER ..... I 941

Comparison and Advantages of Dual-Duct Variable-Volume Control Assemblies in Controlling the Perimeter of Large Buildings, M.L. KLOOSTRA ..... II 848

Comparison of Experimental and Computer-Predicted Performance for Six Solar Domestic Hot Water Systems, S.T. LIU, A.H. FANNEY ... I 823

Comparison of Performance and Computer Simulation of a Thermal Storage System for Commercial Buildings, G. CALOBRISI, J.M. HENDERSON, H.L. BROWN, B.B. HAMEL .... I 336

Compressor Capacity Control for Air-Conditioning System Partial Load Operation, M.W. GARLAND ..... I 477

Compressor Capacity Control for System Partial Load Operation, E.W. NEWTON, D.M. BEEKMAN ..... I 493

Conceptual Design Considerations for the Use of Geothermal Energy in a Food Processing Industry, J.C. AUSTIN ..... I 709

Consumption of Energy and of Capital in Dehumidification Systems, The, H.D. BALL ... I 1031

Contaminant Level Control in Parking Garages, A.R. STANKUNAS, P.T. BARTLETT, K.C. TOWER ..... II 584

Contractor's View of HVAC Noise and Vibration Problems, A, D.J. MOSSHART, JR. ..... I 559

Control of a Heat Pump/Storage/Solar Hot Water-Chilled Water Central Plant, H. NORDEEN .... II 483

Controls for Single-Duct Variable Air Volume Terminal Units, L.W. GEAKE ..... II 825

Conversion of an Electrically Heated Motel to Geothermal Energy, K.L. GARING, G.E. COURY I 747

Cooling and Heat Pump Heating Seasonal Performance Effects Evaluation Models, R.J. RETTBERG ..... I 639

D

Dead Band Controls Guide, J.P. PAOLUCCIO .... I 111
Definition and Measurement of Local Thermal Discomfort Parameters, T.L. MADSEN ..... I 23
Design and Control Strategies for Energy Storage, G. SHAVIT ..... II 631
Design and Operation of a Multi-Functional Test Facility for Heat Exchanger Performance Rating, M. TURAGA, P. FAZIO ..... I 313
Design Charts to Size Direct Gain Passive Systems, J.W. TAUL, Jr. ..... II 889
Design of Direct Digital Control Building Management Systems, The, G.A. SAMS, R. MELLOR, C.J. FIELDEN ..... I 859
Developing Office Building Design and Operation Strategies Using UWENSOL and the Comfort Routine, D.R. HEERWAGEN, A.F. EMERY, C.J. KIPPENHAN, G.B. VAREY ..... I 516
Development of a Northern Climate Residential Air-Source Heat Pump, D.J. YOUNG ..... I 671
Diesel-Driven Heat Pump Centered Integrated Community Energy System, A, R.E. CRANE, H.G. LORSCH, R.G. WERDEN ..... I 991
Direct Cooling Utilizing Aquifer Thermal Energy Storage, W.J. SCHAETZLE, C.E. BRETT, D.M. GRUBBS ..... II 609
Direct Digital Control System in Cornwall, Ontario, A, J.W. FORD ..... I 895
Distributed Processing and DDC Control: A Retrofit Application, A.E. JONES ..... I 869

E

Economic Assessment of Using Nonmetallic Materials in the Direct Utilization of Geothermal Energy, R.M. COSTELLO, T. AMMERLAAN, S.V. CABIBBO, L.E. KUKACKA ..... I 769
Economics of Converting Thermal Incineration Systems to Catalytic Operation, L.C. HARDISON, E.J. DOWD ..... I 100
Effect of Flow and Pressure Transients on Axial Flow Fans, The, J.A. MURPHY ..... I 280
Effect of Noncondensible Gases in Water Chiller Condensers—Literature Survey and Theoretical Predictions, The, R.L. WEBB, A.S. WANNIARACHCHI ..... I 142
Effect of Noncondensible Gases on the Performance of an R-11 Centrifugal Water Chiller Condenser, The, R.L. WEBB, A.S. WANNIARACHCHI, T.M. RUDY ..... II 57
Effects of Air Flow Maldistributions on Air-to-Refrigerant Heat Exchanger Performance, The, T.J. FAGAN, Jr. ..... II 699
Effects of External Heat Traps on Standby Losses from Residential Water Heaters, G.A. JOHNSON, V.W. GOLDSCHMIDT ..... I 917
Effects of Stratification in Performance and Control of Residential Electric Water Heaters, R.E. COOK ..... I 927
Efficiency Improvement Concepts for Residential Gas-Fired Furnaces and Water Heaters, S.G. TALBERT, A.A. PUTNAM, D.W. DeWERTH .... II 327
Efficient Computation of Zone Loads, E.F. SOWELL, G.N. WALTON ..... I 49
El Centro Geothermal Energy Heating and Cooling Field Experiment, The, R.N. YAMASAKI, P.B. SHERWOOD ..... I 732
Electric-Driven Heat Pump Systems: Simulations and Controls II, U. BONNE, A. PATANI, R.D. JACOBSON, D.A. MUELLER ..... I 687
Energy Computer Program Certification—Pros and Cons, C.H. FULLMAN, R.M. HELM ..... I 798
Energy Conservation Ideas for New and Existing Commercial Greenhouses, T.H. SHORT, M.F. BRUGGER, W.L. BAUERLE ..... II 448
Energy Conservation Techniques for Use in Rotary Solid Sorption Dehumidification Systems, J.A. COELLNER ..... I 1022
Energy-Efficient Crop Production in Greenhouses, H.M. Cathey ..... II 455
Energy Management and Conservation in Greenhouses—A Manufacturer's View, H.E. GRAY ..... II 443
Enhancement of Horizontal In-Tube Condensation of R-113, M. LUU, A.E. BERGLES ..... I 293
Environmental Design of a Three-Level, Hub-Type Subway Station in a Central Business District, R.D. YELVINGTON ..... I 82
Estimated Rate of Pressurization and Depressurization of Buildings, M.M. SHAH .... I 251
Experimental and Numerical Study of Air Movement in Slot-Ventilated Enclosures, M.B. TIMMONS, L.D. ALBRIGHT, R.B. FURRY, K.E. TORRANCE ..... I 221
Experimental Comparison of Energy Requirements for Space Heating with Radiant and Convective Systems, An, H.R. BAILEY ..... I 73
Experimental Validation of a Rational Model for Dynamic Responses of Buildings, An, D.P. MEHTA, J.E. WOODS ..... II 497

F

Field Measurement of a Gas Furnace in a Mobile Home and Determination of Steady-State, Cyclic and Seasonal Efficiencies, V.W. GOLDSCHMIDT, R.R. WHITE, R.G. LEONARD . I 379
Field Measurements of a Mobile Home Unitary Heat Pump (in a Heating Mode), G.H. HART, V.W. GOLDSCHMIDT ..... II 347
Fort McHenry Tunnel Ventilation System, P.K. HINKLEY ..... II 557

G

Geothermal Energy for Sugar Beet Processing, J.J. SEIDMAN, E.L. LEVENTHAL ..... I 715
Geothermal Space Heating in Susanville, P.A. EDWARDES, K. UNMACK ..... I 725

H

Heat Pump Centered Heating and Cooling Utilizing Wastewater Heat Recovery, D.W. WADE ..... I 968
Heat Pump Centered Integrated Community Energy System (HP-C-ICES), The, F.S. DUBIN, A. HALFON, P. HERZOG ..... I 979
Heat Pump Control Solutions Using Advanced Microelectronic Technology, D.A. MUELLER, U. BONNE ..... II 461

Heat Pump Integrated Community Energy System Using Annual Aquifer Energy Storage, A, W.J. SCHAETZLE, C.E. BRETT, D. GRUBBS ..... I 955
Heat Transfer and Pressure Drop during Condensation Inside Horizontal Tubes with Static Mixer Inserts, S.T. LIN, N.Z. AZER, L.T. FAN... II 649
Hermetic Magnetic Wire Coating Adherence to Conductor After Heat Cycling in R-22, H.L. EMMONS ..... I 287
High Temperature Heat Pumps Can Accelerate the Use of Geothermal Energy, R.C. NIESS..... I 755
High Velocity, Low Pressure Air System, A, J.J.W. SIGANTO ..... I 180
Hot Water Consumption and Performance of an Automatic Storage-Type Service Water Heating Installation in a School Building, L. JONES .... I 909
Hydronics and Control Valve Selection, J.A. OLSON ..... II 157

I

Impact of HVAC Process Dynamics on Energy Use, The, D.E. MILLER..... II 535
Indoor Sound Rating Criteria, L.S. GOODFRIEND . II 227
Infiltration-Pressurization Correlation: Simplified Physical Modeling, M.H. SHERMAN, D.T. GRIMSRUD ..... II 778
Infrared Audits of Roof Heat Loss, D.M. BURCH .. II 209
In-Situ Measurements of Residential Energy Performance Using Electric Co-Heating, R.C. SONDEREGGER, P.E. CONDON, M.P. MODERA ..... I 394
Intercomparison of Tracer Gases Used for Air Infiltration Measurements, An, D.T. GRIMSRUD, M.H. SHERMAN, J.E. JANSSEN, A.N. PEARMAN, D.T. HARRJE..... I 258

L

Laminar Heat Transfer in a Circular Tube with Twisted Tapes during Condensation, W.A. HELMER, J. IQBAL..... II 662
Life Cycle Cost Analysis for Buildings, R.P. CHARETTE..... II 167

M

Making State Solar Laws Work: Results of a Study of State Solar Energy Incentives, J.D. ROESSNER ..... II 413
Mathematical Model for Predicting Attic Ventilation Rates Required for Preventing Condensation on Roof Sheathing, A, D.M. BURCH, D.E. LUNA ..... I 201
Maximizing COP of Water-to-Air Heat Pumps through Condenser Water Temperature Optimization, J.R. SNYDER ..... II 475
Methods for Conducting Small-Scale Pressurization Tests and Air Leakage Data of Multi-Story Apartment Buildings, C.Y. SHAW .. I 241

N

New Algorithm for Radiant Interchange in Room Loads Calculations, A, G.N. WALTON ..... II 190
New Horizons for 55-74: Implications for Energy Conservation and Comfort, L.G. BERGLUND .. I 507
New Power Saving Household Refrigerator-Freezer, A, T. ONISHI..... II 299
Noise Control and Specifications—A Developer's View, J.C. ROSENFELD ..... I 565
Note on the Transient Performance and Degradation Coefficient of a Field Tested Heat Pump—Cooling and Heating Mode, A, V.W. GOLDSCHMIDT, G.H. HART, R.C. REINER.... II 368
Nutritional Value of Frozen Pizzas, B. KAMEL, A. KRAMER ..... I 160

O

Ontario Government's Experience with Thermal Storage in New and Existing Buildings, W.S. CHICK, Sr. ..... II 741
Optimal Refrigerant Compressor for Low Pressure Ratio Applications, A.L. ECKER ..... I 327
Optimum Heat Transfer through Turbulent Recirculated Plane Air Curtains, R.H. HOWELL, M. SHIBATA ..... I 188

P

Performance of a Continuous Linear Air Diffuser in the Perimeter Zone of an Office Environment, The, G.H. HART, D. INT-HOUT..... II 107
Performance of a Pulse Combustion Gas-Fired Water Heater, S.T. VOGT, M.S. YEN, R.J. SCHOENHALS, W. SOEDEL ..... I 126
Performance of a Vestibule Pressurization System for the Protection of Escape Routes of a 17-Story Hotel, The, G.T. TAMURA..... I 593
Performance of Typical HVAC Materials in Two Geothermal Heating Systems, D.A. MITCHELL. I 763
Performance Simulation of Residential Heating Systems with HFLAME III, U. BONNE, A. PATANI..... I 351
Phase-Change Heat Transfer in Solar Hot Water Heating Using R-11 and R-114, R.C. DOWNING, V.H. WALDIN ..... I 848
Physiological Responses of 262 Seated Sedentary Subjects in Neutral and Heat Stress Environments, S.A. KONZ, W.B. ZUTI, F.H. ROHLES, JR., D.E. SKIPTON ..... I 528
Pressure Drop in Evaporative Two-Phase Vertical Upflow of Freon-11 in a Small-Diameter Tube, A.H. ABDELMESSIH, Y. ADENIJI-FASHOLA... II 675
Program to Involve the Homeowner in the Fabrication and Installation of a Solar Water Heater, A, S.A. MUMMA..... I 836
Proposed Procedure of Testing for Rating Solar Domestic Hot Water Systems, A, J.E. HILL, A.H. FANNEY..... ! 805
Pros and Cons of Certification of Energy Analysis Computer Programs, The, K.D. HALL, JR., N.R. PATTERSON..... I 793

R

Rail Vehicle Air-Conditioning Equipment with Overload Relieving System, T. MATSUDA, S. MIYAMOTO, Y. MINOSHIMA..... II 290

Reducing Residential Energy Growth with More Efficient Space Heating Equipment, D.L. O'NEAL, E.A. HIRST ..... II 311
Research on Conservation and Solar Energy Utilization in Greenhouses, W.J. ROBERTS, D.R. MEARS ..... II 433
Residential Hybrid Heat Pump State-of-the-Art Assessment, M.H. BLATT, R.C. ERICKSON .... II 376
Residential Ice Storage as a Load Management Tool, R.H. AURIS ..... II 623
Review and Analysis of the Transient Method for Determining Thermal Diffusivity of Fruits and Vegetables, J.J. GAFFNEY, C.D. BAIRD, W.D. ESHLEMAN ..... II 261
Review of Currently Available Sorption Equipment for Air-Conditioning, A, J.K. Thornton ..... I 1007

S

Selection of Working Fluids Appropriate for Solar Rankine Cycle Cooling of Buildings, E.I. WALI .. II 48
Simultaneous Firing of Coal with Oil or Gas in Boilers 60-600 hp (589-5886 kW), W.F. ZUNKER I 93
Sizing an Air-Cleaning System, L.C. RODGERS ... II 99
Small-Sized, Oblong, Universal Burner with Low NO_x Emission, A, T. HASHIMOTO, S. YAMAZAKI, T. SHINOZAKI ..... II 28
Solar and Sorption—An Energy Effective Alternative, S.D. FITCH ..... I 1027
Sound Off, R.M. PARSKY ..... I 555
Spray Head Design on Fishing Vessels Using Sprayed Refrigerated Seawater, E.R. KOLBE .. II 281
Stairwell Pressurization, J.H. KLOTE ..... I 604
Study of the Effects and Economics of Capacity Modulation on Seasonal Energy Efficiency Ratios (SEER) for Air Conditioners, A, R.W. GRIFFITH ..... I 465
Survey of Published Heat Transfer Coefficients Encountered in Food Refrigeration Processes, J. ARCE, V.E. SWEAT ..... II 235
System for Maximizing Solar Collection with Thermal Storage, A, B.T. TAMBLYN ..... II 724
System-Powered Variable Air Volume Terminals, J.P. KETTLER ..... II 839

T

Temperature or Temperament: A Psychologist Looks at Thermal Comfort, F.H. ROHLES, JR... I 541
Testing of the IDS Tower Smoke Control System, J.W. FOTHERGILL, JR., G.C. HEDSTEN ..... I 575
Thermal Comfort during Cyclical Temperature Fluctuations, F.H. ROHLES, JR., G.A. MILLIKEN, D.E. SKIPTON, I. KRSTIC ..... II 125
Thermal Comfort in a Room Heated by Different Methods, B.W. OLESEN, E. MORTENSEN, J. THORSHAUGE, B. BERG-MUNCH ..... I 34
Thermal Modeling of Passive Solar Buildings on a Programmable Calculator, J.T. KOHLER, P.W. SULLIVAN ..... II 861
Thermal Storage and Water Source Heat Pumps in Canada, T.W. ROGERS ..... II 731
Thermal Storage in Robson Square, Vancouver, British Columbia, E.I. MACKIE ..... II 717
Thermodynamic Cycle of the Minto Solar Wheel, The, S. LIN ..... I 408
Transient Thermal Behavior of an Externally Insulated Massive Building, P.S. GUJRAL, R.J. CLARK, D.M. BURCH ..... II 521
Two-Phase Flow in Horizontal Condensate Return Line of Steam Thermal Systems, R.A. FLESCHNER, R.H. HOWELL, H.J. SAUER, JR. . I 440

U

Use of Liquid Sorption Dehumidification to Improve Energy Utilization of Air Systems, W.C. GRIFFITHS ..... I 1013
Using the Heat Pump Annual Utilization Efficiency to Optimize Design and Conservation of Energy, J.A. HUGHES, J. KASPRZYCKI, L.R. POOLE ... I 660

V

Variable Pitch Axial Flow Fans for Tunnel Ventilation: A Comparison to Centrifugal Fans, H.D. BAESEL ..... II 573

W

Wind and Temperature Induced Pressure Differentials and an Equivalent Pressure Difference Model for Predicting Air Infiltration in Schools, C.Y. SHAW ..... I 268

AUTHORS

A

ABDELMESSIH, A.H., Y. ADENIJI-FASHOLA, Pressure Drop in Evaporative Two-Phase Vertical Upflow of Freon-11 in a Small-Diameter Tube ..... II 675

ADENIJI-FASHOLA, Y., A.H. ABDELMESSIH, Pressure Drop in Evaporative Two-Phase Vertical Upflow of Freon-11 in a Small-Diameter Tube ..... II 675

ALBRIGHT, L.D., M.B. TIMMONS, R.B. FURRY, K.E. TORRANCE, Experimental and Numerical Study of Air Movement in Slot-Ventilated Enclosures ..... I 221

ALEXANDER, D.K., D.W. ETHERIDGE, The British Gas Multi-Cell Model for Calculating Ventilation 11 808

AMMERLAAN, T., R.M. COSTELLO, S.V. CABIBBO, L.E. KUKACKA, Economic Assessment of Using Nonmetallic Materials in the Direct Utilization of Geothermal Energy ..... I 769

ARCE, J., V.E. SWEAT, Survey of Published Heat Transfer Coefficients Encountered in Food Refrigeration Processes ..... II 235

ARUMI-NOE, F., D.O. NORTHRUP, The Bruce Hunn Residence as Simulated by the DEROB System ..... II 873

AURIS, R.H., Residential Ice Storage as a Load Management Tool ..... II 623

AUSTIN, J.C., Conceptual Design Considerations for the Use of Geothermal Energy in a Food Processing Industry ..... I 709

AZER, N.Z., S.T. LIN, L.T. FAN, Heat Transfer and Pressure Drop during Condensation Inside Horizontal Tubes with Static Mixer Inserts .... II 649

B

BAESEL, H.D., Variable Pitch Axial Flow Fans for Tunnel Ventilation: A Comparison to Centrifugal Fans ..... II 573

BAILEY, H.R., An Experimental Comparison of Energy Requirements for Space Heating with Radiant and Convective Systems ..... I 73

BAIRD, C.D., J.J. GAFFNEY, W.D. ESHLEMAN, Review and Analysis of the Transient Method for Determining Thermal Diffusivity of Fruits and Vegetables ..... II 261

BALL, H.D., The Consumption of Energy and of Capital in Dehumidification Systems ..... I 1031

BANHIDI, L., P.O. FANGER, B.W. OLESEN, G. LANGKILDE, Comfort Limits for Heated Ceilings ..... II 141

BARTLETT, P.T., A.R. STANKUNAS, K.C. TOWER, Contaminant Level Control in Parking Garages . II 584

BAUERLE, W.L., T.H. SHORT, M.F. BRUGGER, Energy Conservation Ideas for New and Existing Commercial Greenhouses ..... II 448

BEEKMAN, D.M., E.W. NEWTON, Compressor Capacity Control for System Partial Load Operation ..... I 493

BERGLES, A.E., M. LUU, Enhancement of Horizontal In-Tube Condensation of R-113..... I 293

BERGLUND, L.G., New Horizons for 55-74: Implications for Energy Conservation and Comfort I 507

BERG-MUNCH, B., B.W. OLESEN, E.MORTENSEN, J. THORSHAUGE, Thermal Comfort in a Room Heated by Different Methods ..... I 34

BLATT, M.H., R.C. ERICKSON, Residential Hybrid Heat Pump State-of-the-Art Assessment..... II 376

BONNE, U., A. PATANI, Performance Simulation of Residential Heating Systems with HFLAME III . I 351

BONNE,U., A. PATANI, R.D. JACOBSON, D.A. MUELLER, Electric-Driven Heat Pump Systems: Simulations and Controls II..... I 687

BONNE, U., D.A. MUELLER, Heat Pump Control Solutions Using Advanced Microelectronic Technology..... II 461

BRETT, C.E., W.J. SCHAETZLE, D. GRUBBS, A Heat Pump Integrated Community Energy System Using Annual Aquifer Energy Storage.. I 955

BRETT, C.E., W.J. SCHAETZLE, D.M. GRUBBS, Direct Cooling Utilizing Aquifer Thermal Energy Storage..... II 609

BROWN, H.L., G. CALOBRISI, J.M. HENDERSON, B.B. HAMEL, Comparison of Performance and Computer Simulation of a Thermal Storage System for Commercial Buildings ..... I 336

BRUGGER, M.F., T.H. SHORT, W.L. BAUERLE, Energy Conservation Ideas for New and Existing Commercial Greenhouses 11 448

BURCH, D.M., Infrared Audits of Roof Heat Loss.. II 209

BURCH, D.M., D.E. LUNA, A Mathematical Model for Predicting Attic Ventilation Rates Required for Preventing Condensation on Roof Sheathing I 201
